

An update on Chestnut Meadow Park

www.chestnutmeadow.co.uk

We have had so many supportive and wonderful messages during lock down we just wanted to share what's been happening behind the scenes. A little dash of positivity is what we all need right now.

We must, and will, follow our Governments instructions and guidelines and we can see that they are taking small but steady steps to reopen the UK whilst balancing everyone's welfare. It's scary....but the anticipation of a safe end to lock down is just so exciting isn't it!

Therefore, we are getting everything ready so that we can, if we are allowed, to open Chestnut Meadow on the 4th July 2020. We cannot guarantee that this will happen, but we are very hopeful indeed.

We are taking bookings from the 4th July 2020 however, if we are forced to stay closed, we give a no quibble guarantee that any deposits or payments for bookings made directly through our website or via phone to us will be refunded immediately. We have also incorporated a new tool in our website booking system so you can manage your booking. This could involve moving it to a later or an earlier date subject to availability giving you total flexibility and assurance whilst still making sure you can get that well deserved break.

We are sure all our visitors can understand we are having to put in place all sorts of procedures and measures, all aimed at keeping you and your family as safe as we can.

Undoubtedly Chestnut Meadow will be a different place to the one you remember but if it means that we can open safely then that can only be a good thing. I think slow and steady will be the way we will all approach life as lockdown ends.

There is a hygiene, cleaning and social protection plan below explaining measures we shall be putting in place to protect our guests and to make sure we are Covid-19 compliant and secure.

Some of our big plans have been delayed, for instance the new lodge park progress is way behind schedule.....but.....the new drive and entrance is looking fabulous! Please remember if you have been to us before do not use the old entrance as that is blocked off and there is no turning space. Stay on the same road and drive a little further towards Ninfield and experience the brand new drive, no low branches to navigate, lovely new tarmac, plenty of passing spaces.....and super strong grass seed desperately trying to grow without rain!

We really cannot wait to see and welcome old faces and new. We are so excited about you all returning to Chestnut Meadow.

Roy has single handedly mown the camping field continuously. It looks amazing. All we need nowis you!
